Foreword

Building on a distinguished legacy and a model journey in international development, the Saudi Fund for Development (SFD) continues its development efforts, reaffirming its leading role in supporting development cooperation between the Kingdom and countries worldwide, and delivering sustainable impact that enhances the lives of people in developing countries.

In 2025, SFD activities continued its distinguished approach in supporting and financing high-impact projects across vital sectors, fostering comprehensive and sustainable development for the communities of beneficiary countries. Post-evaluations of these projects have further demonstrated their developmental impact. 2025 was also a milestone year for SFD, marked by expanded and strengthened partnerships with various international development partners, further solidifying SFD's position as a leading development hub on the international stage.

At SFD, we reaffirm our commitment to continuing this journey by developing new and innovative initiatives that maximize the impact of international development. We also support projects that drive the development goals of developing countries and fostering global prosperity and stability, while strengthening the Kingdom's pioneering regional and global role in alignment with the goals of the Saudi Vision 2030.

Finally, I extend my deepest gratitude and appreciation to the Custodian of the Two Holy Mosques, King Salman bin Abdulaziz, and His Royal Highness Prince Mohammed bin Salman bin Abdulaziz Al Saud, Crown Prince and Prime Minister - may Allah protect them - for their continued support and wise vision in advancing national and international development. I also extend my sincere thanks to my fellow board members and SFD staff for their dedicated efforts and valuable contributions to strengthening SFD's mission and achieving its developmental goals.

May Allah grant us Success.

Chairman of the Board

H.E. Ahmed bin Aqeel Al-Khateeb

SFD's Headquarters - Riyadh

SFD Overview

Incorporation

The Saudi Fund for Development (SFD) was established by Royal Decree No. (M/48) issued on 14/08/1394 corresponding to 01/09/1974 it began operations on 18/02/1395 01/03/1975.

Vision

SFD seeks to be a comprehensive strategic partner that advances the sustainable economic development of the world's least developed countries.

Mission

SFD empowers the stable economic development of countries in need by leveraging the Kingdom of Saudi Arabia's resources to provide financial, technical and human support to meet the needs of its partners.

Objectives

As defined in its Law, SFD's main objective is to finance development projects in developing countries by providing the necessary loans and technical support for studies and institutional development.

Management and Organization

SFD is a public institution and an independent legal entity with financial autonomy. It is overseen by an eleven-member Board of Directors. The CEO holds executive authority and is responsible for implementing the Board's decisions.

Capital

SFD began operations with a capital of USD 2.66 billion provided by the Saudi government. This capital later tripled through three phases, reaching USD 8.26 billion.

H.E. the Prime Minister of Barbados, Ms. Mia Amor Mottley, with H.E. the CEO, Mr. Sultan bin Abdulrahman Al-Marshad, during the signing of the first development cooperation between the two sides through two development loan agreements.

Scope of Activity

Financing Development Projects

SFD's primary activity is to provide soft loans without territorial limitations. SFD works directly with the governments of developing countries to finance priority development projects, with a focus on the least developed and low-income nations.

- SFD's Law outlines the core rules for providing development loans.
- Development loans are used to finance key projects.
- The following conditions must be met to qualify for SFD loans:

The project must be shown to be economically or socially feasible.

Full project financing must be secured before the loan is granted.

The loan must be paid and repaid in Saudi riyals.

The loan amount granted to any project shall not exceed 5% of SFD's capital.

The total loan amounts granted to any country in one time shall not exceed 10% of SFD's capital.

Trends of Loans Provided by SFD

Geographical

- Most of SFD's activities are in Africa and Asia.
- SFD assists developing countries that face challenges in achieving global development goals.
- SFD also supports countries with limited economic and financial resources, including those that:

In need for fundamental developmental assistance.

less developed.

Heavily poor.

Landlocked and non-coastal.

Facing economic and social challenges, such as lack of natural resources and high population growth rates.

Sectoral

- SFD focuses on key economic and social sectors in developing countries to promote sustainable development.

SFD's loans are directed toward:

- Preserving the environment and public health.
- Ensuring food and water security.
- Strengthening protection against diseases and epidemics by supporting the health sector.
- Providing adequate housing for low-income groups.
- Develop industry and mining business.
- Providing energy for all.
- Develop basic infrastructure by expanding transport and communication networks.
- Develop and enhance human resources through providing education.

President of the Republic of Maldives Dr. Mohamed Muizzu, has conferred the prestigious Order of the Dignified Rule of Muleege Dynasty (O.D.R.M.D) in recognition of Saudi Arabia's significant development contributions, delivered through the SFD.

Chapter One

Development Activity During Fiscal Year (2025)

First: Signed Loan Agreements

Second: Sectoral Distribution of Signed Loans

Third: Overview of Signed Loans

Fourth: Co-Financing of Signed Loans

Fifth: Loans Approved by the Board of Directors

First: Signed Loan Agreements

During the fiscal year 2025, SFD financed a number of priority development projects in developing countries. It signed 13 loan agreements, including one additional loan agreement, with 11 developing countries, with a total amount of USD 470.91 million. This included two loans in Africa totaling USD 98.21 million, six loans in Asia and the Pacific totaling USD 228 million, two loans in Europe totaling USD 32 million, and three loans in Latin America and the Caribbean totaling USD 112.70 million. It is worth noting that SFD expanded its lending activities during the fiscal year 2025 to include 3 new countries, namely Suriname, Solomon Islands, and Barbados, as follows:

Total Amounts of Signed Loans

470.91

USD million

Third: Overview of Signed Loans

Turkmenistan

Project name: Improving Quality of Oncology Services and Construction of Cancer Treatment Centers

Total Costs of the Project

USD 259 Million

SFD Contribution

USD 80 Million

Date of Signed Agreement

07/01/2025

Expected Date of Completion

December 2027

Entity Responsible for Implementation

**Ministry of Health
and Medical Industry**

Project Objectives and Description:

The project aims to develop and improve healthcare services through the construction and equipping of three specialized cancer treatment centers with a capacity of 500 beds. This will enhance the quality of healthcare services provided to patients, and the centers will be furnished with the state-of-the-art medical equipment.

Pakistan

Project name: Gravity Flow Water Supply Project in Mansehra

Total Costs of the Project

USD 85.25 Million

SFD Contribution

USD 41 Million

Date of Signed Agreement

03/02/2025

Expected Date of Completion

December 2027

Entity Responsible for Implementation

**Public Health Engineering
Department (PHED)**

Project Objectives and Description:

The project aims to supply potable water to the residents of Mansehra city, located in Khyber Pakhtunkhwa Province, approximately 140 kilometers from the capital, Islamabad. The city has a population of about 500,000 people, while the current water network covers only around 40% of the population, with the remaining residents relying on well water. As the current water supply network is unreliable due to poor infrastructure and contaminated water sources, it causes numerous diseases among the city's residents. Upon completion, this project will contribute to delivering clean and potable water to the majority of the city's population.

Suriname

Project name: Expansion of Power Generation Transmission and Distribution Systems

Total Costs of the Project

USD 105.47 Million

SFD Contribution

USD 20 Million

Date of Signed Agreement

10/02/2025

Expected Date of Completion

December 2028

Entity Responsible for Implementation

**Energie Bedrijven Suriname
(EBS)**

Project Objectives and Description:

The project aims to expand the electricity transmission and distribution network in the capital, Paramaribo, as well as in the city of Nickerie. This is intended to enhance the availability of electrical power for citizens and farmers, which improves and increases the efficiency of electricity grid in the Republic of Suriname. The project also aims to supply and connect electricity to a number of farms and factories in Nickerie city, in support of agricultural and industrial development and to strengthen the energy infrastructure in the region.

Solomon Islands

Project name: **Renewable Energy**

Total Costs of the Project

USD 42 Million

SFD Contribution

USD 10 Million

Date of Signed Agreement

08/04/2025

Expected Date of Completion

July 2029

Entity Responsible for Implementation

**Ministry of Mines, Energy and
Rural Electrification**

Project Objectives and Description:

The project aims to improve the security of energy sources in Solomon Islands through the establishment of solar power generation plants to produce electricity from renewable sources. This will contribute to strengthening the reliability of electricity grid and achieving a balance between providing reliable and affordable energy for all citizens, in addition to expanding access to electricity for a larger number of the population.

Maldives

Project name: Expansion of Velana International Airport (additional loan)

Total Costs of the Project

USD 588.90 Million

SFD Contribution

USD 17 Million

Date of Signed Agreement

14/04/2025

Expected Date of Completion

December 2025

Entity Responsible for Implementation

**Maldives Airports Company
Limited (MACL)**

Project Objectives and Description:

The project aims to construct a new passenger terminal building at Velana International Airport, increasing its capacity to 7 million passengers annually, with the possibility of further expansion to 1 million passengers annually, and enhancing passenger flow efficiency within the airport terminal. It also allows for future expansions to reach a capacity of up to 15 million passengers annually. The design also reflects the identity of the Republic of Maldives, while providing air cargo services for the import and export of goods and commodities. The project supports the development of tourism sector and commercial activity in the country, whose economy relies primarily on tourism.

Tunisia

Project name: Establishing a development hub in southern Tunisia

Total Costs of the Project
USD 38.21 Million

SFD Contribution
USD 38.21 Million

Date of Signed Agreement
27/06/2025

Expected Date of Completion
June 2032

Entity Responsible for Implementation
**Regional Commissariat for
Agricultural Development in Tataouine**

Project Objectives and Description:

The project aims to support and strengthen agricultural sector through the reclamation of 1,000 hectares of agricultural land and the drilling of 22 wells. It also includes the expansion of Borj Bourguiba village, the establishment of Wadi Al-Zar and Al-Shawaouda villages, as well as the development of the associated infrastructure and public facilities, contributing to improved service delivery for farmers.

Tajikistan

Project name: Kulyab Bypass Road

Total Costs of the Project
USD 31.70 Million

SFD Contribution
USD 30 Million

Date of Signed Agreement
02/07/2025

Expected Date of Completion
December 2028

Entity Responsible for Implementation
Ministry of Transport

Project Objectives and Description:

The project aims to construct a 14.5 km road to improve the efficiency of land transport infrastructure and ensure the safe and efficient movement of goods and people in Kulob. It will also help accommodate current traffic and meet future transportation needs.

Bosnia & Herzegovina

Project name: Construction of Science and Technology Park

Total Costs of the Project

USD 19 Million

SFD Contribution

USD 19 Million

Date of Signed Agreement

21/07/2025

Expected Date of Completion

December 2027

Entity Responsible for Implementation

Management of Science and Technology Park

Project Objectives and Description:

The project aims to establish a multidisciplinary scientific center on an area of approximately 20 hectares, contributing to the development of biotechnology and its applications, as well as supporting the country's economic development, healthcare services, scientific progress, and higher education. The center will also bring together researchers, scientists, business professionals, and industry specialists from various fields by creating a collaborative environment that encourages interdisciplinary approaches and the exchange of ideas.

Bosnia & Herzegovina

Project name: **Constructon and Equipping of an Additional Facility for Student Accommodation at the Borisa Starovic Public Institution Student Center in Foca**

Total Costs of the Project

USD 13 Million

SFD Contribution

USD 13 Million

Date of Signed Agreement

21/07/2025

Expected Date of Completion

December 2027

Entity Responsible for Implementation

**Borisa Starovic Student Center
in Foca**

Project Objectives and Description:

The project aims to support scientific development in Bosnia and Herzegovina through the construction and equipping of two residential buildings with a total area of approximately 2,835 square meters. This accommodation will have a positive impact on increasing university enrollment. The project will also contribute to supporting higher education sector and strengthening health sector by providing qualified medical personnel, contributing to the overall development and economic growth of the country.

Barbados

Project name: Polyclinic Upgrade and Refurbishment of Primary Health Care System

Total Costs of the Project

USD 65 Million

SFD Contribution

USD 58.50 Million

Date of Signed Agreement

30/07/2025

Expected Date of Completion

December 2028

Entity Responsible for Implementation

Ministry of Health & Wellness

Project Objectives and Description:

The project aims to develop healthcare centers, provide high-quality healthcare, and expand services in primary healthcare facilities in the country, leading to a decrease in disease, disability, and mortality rates. The project will also contribute to facilitating citizens' access to these centers to receive treatment.

Barbados

Project name: Urban Renewal in the Water, Housing, and Infrastructure Sector (Phase I)

Total Costs of the Project

USD 38 Million

SFD Contribution

USD 34.20 Million

Date of Signed Agreement

30/07/2025

Expected Date of Completion

December 2031

Entity Responsible for Implementation

Prime Minister's Office – Barbados

Project Objectives and Description:

The project aims to improve quality of life and upgrade housing and residential neighborhoods for low- and middle-income communities in the Bridgetown, enabling them to become more climate-resilient. The project will also contribute to providing additional affordable housing solutions for low- and middle-income families. In addition, it will strengthen the institutional capacity of the relevant entities responsible for housing provision, neighborhood revitalization, and the improvement of service delivery and living conditions.

Kyrgyzstan

Project name: **Construction of Public Schools (Phase II)**

Total Costs of the Project

USD 50 Million

SFD Contribution

USD 50 Million

Date of Signed Agreement

09/10/2025

Expected Date of Completion

December 2028

Entity Responsible for Implementation

**Ministry of Construction, Architecture,
Housing and Communal Services**

Project Objectives and Description:

The project aims to develop and improve public education and meet the country's educational service needs in response to the increasing number of students. This will be achieved through the construction and equipping of 14 schools with capacities ranging from 150 to 1,000 male and female students across various regions of the Kyrgyz Republic. This initiative comes within the government's framework to develop education sector throughout the country.

Mauritania

Project name: Electrical Interconnection between Mauritania and Mali and Development of Associated Solar Plants

Total Costs of the Project

USD 110 Million

SFD Contribution

USD 60 Million

Date of Signed Agreement

13/12/2025

Expected Date of Completion

June 2030

Entity Responsible for Implementation

**Societe Mauritanienne
d'Electricite (SOMELEC)**

Project Objectives and Description:

The project aims to expand Mauritania's electricity transmission and distribution network by interconnecting the country's major cities, extending from Nouakchott to Nema, and subsequently linking the network to the transmission system of the Senegal River Basin Development Organization (OMVS), thereby enabling cross-border electricity exchange with Mali. The project includes the construction of a 1,373 km, double-circuit, 225 km transmission line with a transmission capacity of 600 MW, the establishment of 11 substations connected to the transmission line, and the provision of electricity to 150 villages located along the transmission corridor.

Fourth: Co-Financing of Signed Loans

During the fiscal year 2025, SFD contributed to financing 9 loans in 8 developing countries in partnership with other financiers. SFD's total contribution to these financings amounted to USD 350.70 million. The details of these financings are as follows:

A. Africa

Country	Project Name	SFD Contribution (USD Million)	Total Cost (USD Million)	Other Financiers and Finance Amount
Mauritania	Electrical Interconnection between Mauritania and Mali and Development of Associated Solar Plants	60	110	Islamic Development Bank: USD 50 million

Chapter Three

Project in the Spotlight

- SFD's Efforts in Supporting Education Sector in Central Asia Countries
- Contribution of the Kingdom's Private Sector to the Implementation of Projects Financed by SFD

SFD's Efforts in Supporting The Education Sector in Central Asia Countries

Central Asia, which includes countries such as Kyrgyzstan, Tajikistan, Uzbekistan, and Azerbaijan, is among the regions that have experienced notable development in the education sector since gaining independence from the Soviet Union in the early 1990s. These countries inherited relatively well-established education systems in terms of accessibility and literacy rates. Education in these countries is characterized by high enrollment rates at the basic education level, with primary education approaching near-universal coverage in most of them. General education is also often free and compulsory for several years. Governments in the region place significant importance on education as a cornerstone of development, with a focus on modernizing and aligning curricula with labor market requirements.

Despite these positive aspects, education systems in Central Asia face a number of challenges, most notably weak infrastructure in some rural areas, a shortage of qualified teaching staff, and disparities in education quality between urban and rural regions. These countries are also seeking to reform their education systems to transition from traditional models to modern approaches based on innovation and technology. In recent years, the region has experienced increased efforts to develop education through international cooperation, investment in building schools and universities, and the expansion of technical and vocational education, which contributes to preparing qualified workforce that supports economic growth. Digital transformation in education has gained greater attention, particularly in the wake of COVID-19 pandemic, which has driven the adoption of e-learning solutions and the development of digital infrastructure.

Overall, the education sector in Central Asia combines an established educational legacy with modern reform ambitions, while continuing to require investment and international partnerships to achieve higher-quality and more inclusive education that meets the growing needs of student populations.

SFD has played a role in financing several educational projects in Central Asian countries such as Kyrgyzstan and Tajikistan. These efforts have included funding the construction of schools and equipping them with modern educational facilities, contributing to the improvement of the learning environment and increasing student capacity. In the Kyrgyz Republic, SFD has financed a project for the construction of dozens of public schools, benefiting more than 50,000 students annually, which enhances access to education and improving its quality. In Tajikistan, SFD has also supported the establishment and development of modern schools under development programs aimed at serving thousands of students and improving the quality of education in various regions. These efforts are not limited to infrastructure alone but also extend to supporting international partnerships and knowledge exchange with development institutions, which strengthens education systems and aligning them with Sustainable Development Goals. This reflects SFD's commitment to education as a strategic tool for human development and empowerment of communities, particularly in countries facing development challenges. Accordingly, SFD's support for education sector in Central Asia represents an effective model of international cooperation that contributes to strengthening human development and preparing generations capable of contributing to the economic and social development of their countries.

SFD Contributions to The Education Sector in Central Asian Countries

SFD's contributions to the education sector in Central Asian countries reflect a firm commitment to supporting human development and expanding educational opportunities in partner countries. This sector represents a cornerstone for building societies capable of achieving growth and stability. SFD has given particular attention to supporting education in several countries in the region, including Tajikistan, Kyrgyzstan, Uzbekistan, and Azerbaijan, recognizing the pivotal role education plays in empowering individuals and promoting sustainable development.

In this context, SFD has financed 10 education projects across Central Asia, with a total value of USD 211.03 million, aimed at developing educational infrastructure and expanding educational services, which improves the quality of and increases access to education. These projects included the construction and equipping of schools and the educational institutions, improving educational environment, and enhancing capacity of educational facilities to accommodate population growth and increasing demand for education.

They also contributed to integrated development impacts, including providing modern and safe learning environments, creating job opportunities for educational and administrative staff, and supporting social and economic stability in these countries. These efforts reflect SFD's approach based on an effective partnership with beneficiary countries to ensure sustainability and maximize development impact.

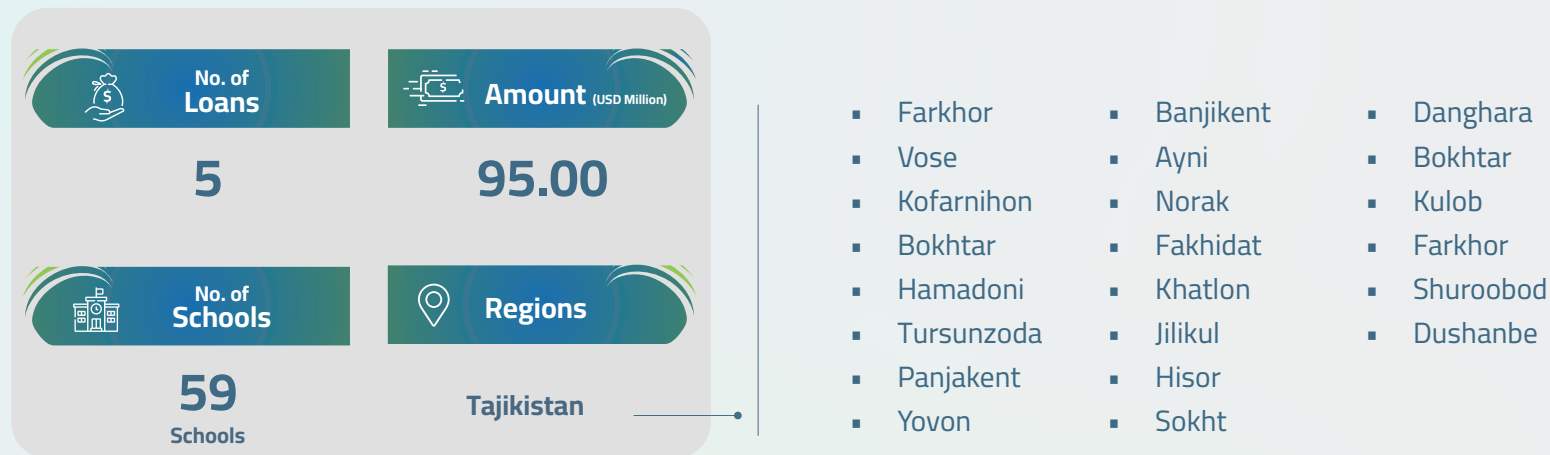

Thus, SFD's contributions to the education sector in Central Asia stand as an effective model of international cooperation, reflecting its commitment to investing in people and supporting development through education as one of the key drivers of progress and prosperity. The following table illustrates SFD's contributions to supporting this sector:

USD Million

No.	Country	No. of Loans	Amount
1	Tajikistan	5	95.00
2	Kyrgyzstan	2	80.00
3	Uzbekistan	2	26.51
4	Azerbaijan	1	9.52
Total		10	211.03

First: SFD's Support for The Education Sector in the Republic of Tajikistan

SFD began its development and support efforts for the education sector in the Republic of Tajikistan in 2000, providing its first development loan in the amount of USD 26 million, allocated for the construction and equipping of 26 schools in the regions of Kofarnihon, Tursunzoda, and Panjakent. Since then, SFD has continued its efforts to support this vital sector by financing five development projects across the country. These projects have included the construction, completion, and equipping of schools with modern educational tools and technologies, contributing to improving the educational environment and enhancing learning outcomes. As shown below:

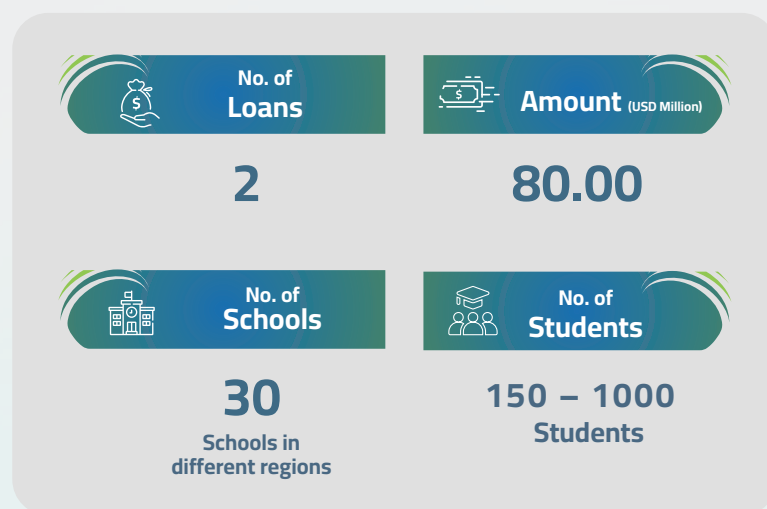

Project's Development Outputs

- Supporting and strengthening the efforts in providing educational services.
- Improving quality of education.
- Developing basic skills.
- Increasing school enrollment rates.

Second: SFD's Support for The Education Sector in the Kyrgyz Republic

SFD contributed to supporting the education sector in the Kyrgyz Republic by providing two development loans, the first in 2017 and the second in 2025, with a total amount of USD 80 million. These loans aimed to develop and improve public education and meet the country's educational service needs, in response to the increasing number of students by constructing and equipping 30 schools across various regions of the country, with capacities ranging from 150 to 1,000 students, as shown below:

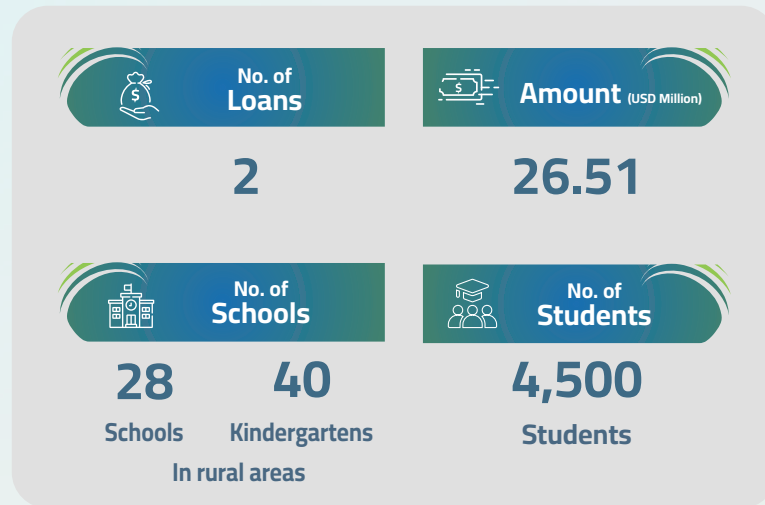

Project's Development Outputs

- Meeting the country's educational service needs.
- Developing human resources.
- Raising educational attainment levels.
- Improving sustainable development opportunities.

Third: SFD's Support for The Education Sector in the Republic of Uzbekistan

SFD provided two concessional development loans in the Republic of Uzbekistan during 2008 and 2020, with a total financing amount of USD 26.51 million. These loans aimed to support government efforts to develop early childhood education and general education. The financing included the construction and equipping of 40 kindergartens with a total capacity of approximately 4,500 children, as well as establishing and equipping several new secondary schools in various regions of the country, most of which are located in rural areas. These schools were implemented according to two standardized design models; the first includes 17 schools with a capacity of 315 students per school, and the second includes 11 schools with a capacity of 216 students per school. In addition, playgrounds and sports halls were constructed to support the educational process, as illustrated below:

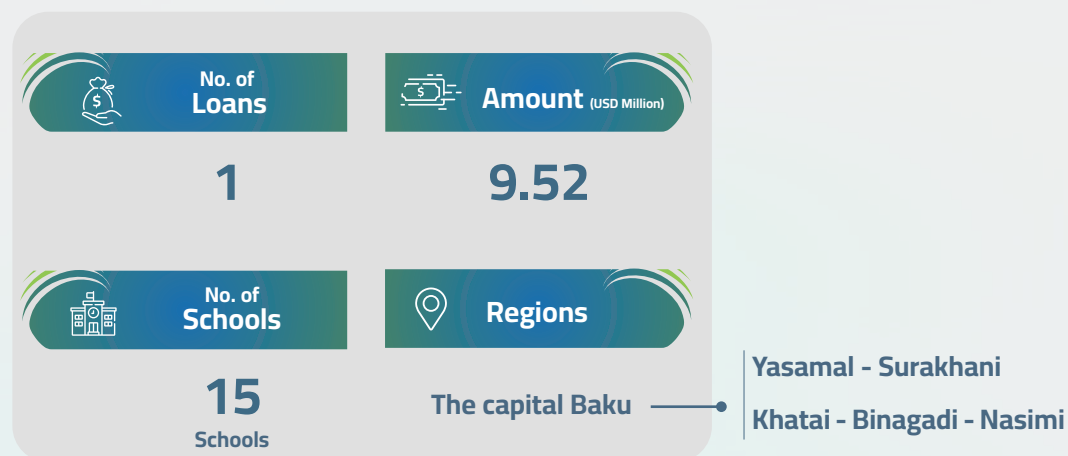

Project's Development Outputsa

- Enhancing early childhood education.
- Improving educational environment.
- Increasing school enrollment rates.
- Developing students' skills.

Fourth: SFD's Support for The Education Sector in the Republic of Azerbaijan

SFD financed a project for the construction of secondary schools in the capital, Baku, in 2003, with a total amount of USD 9.52 million, to meet the increasing demand for educational services. This included constructing and equipping 15 secondary schools across various districts of the city, along with modern educational tools and technologies to improve the quality of learning environment and enhance educational outcomes. As shown below:

Project's Development Outputsa

- Preparing students for labor market.
- Improving education quality.
- Promoting the use of modern technologies.
- Contributing to economic and social development.

Contribution of the Kingdom's Private Sector to the Implementation of Projects Financed by SFD

SFD contributes to supporting developing countries in implementing their development projects funded by SFD through leveraging the accumulated expertise and competitive advantages available in the private sector in Saudi Arabia, particularly in consulting, contracting, and material supply. These contributions have played a significant role in Kingdom's comprehensive development. SFD channels these capabilities to the beneficiary countries of its loans by encouraging Saudi companies to compete in international tenders for project implementation. The following outlines the private sector's contribution to implementing certain SFD-funded projects up to the end of the fiscal year 2025.
